

Potosa Spa

COVID-19 Update:

In light of Governor Reynolds' declaration of a State of Public Health Disaster Emergency in the state of Iowa, we will be closing Potosa Spa immediately.

We will also be working with clients to determine how to manage any events that are impacted by this announcement. We will continue to keep our community abreast of the latest information on our social media channels. We are saddened to close our doors, but we are confident that the steps being taken today across the country and the world will result in better outcomes for everyone.
